

S. SATHYA PRIYA

Aspiring Cyber Security Professional

sathyapriya0824@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Cyber Security student with practical internship experience and 15+ professional certifications. Skilled in Java, Python, networking, and secure coding. Passionate about building secure systems and continuous learning.

EDUCATION

B.E. Computer Science and Engineering (Cyber Security)

Prince Dr. K. Vasudevan College of Engineering and Technology

Currently Pursuing

INTERNSHIPS

Cyber Security Intern — CodeAlpha

1 Month

- Gained practical experience in cybersecurity concepts and real-world security applications.
- Worked on Phishing Awareness Training and Secure Coding practices.

Cyber Security Intern — CODEC

1 Month (May - June 2026)

- Received hands-on exposure to security tools and industry workflows.
- Strengthened knowledge of security best practices and secure development.

TECHNICAL SKILLS

Cyber Security: Networking, Linux, Secure Coding, Phishing Awareness

Languages: Java, Python, C++, JavaScript

Web: HTML5, CSS3, Responsive Design

Tools: Git, GitHub, Linux CLI, Nmap, Wireshark (Learning)

CERTIFICATIONS

- Introduction to Cybersecurity — Cisco Networking Academy
- Object Oriented Programming using C++ — NPTEL
- Java Programming Fundamentals — Infosys Springboard
- Python Fundamentals — Infosys Springboard
- Unlocking the Power of JavaScript — Scaler
- Responsive Web Design — freeCodeCamp
- ChatGPT and AI Tools Workshop — Be10X

KEY PROJECTS

- **Phishing Awareness Training Platform** — Interactive training tool for phishing attack prevention.
- **Educational Web Applications** — Built responsive learning-focused web apps using HTML, CSS & JS.
- **35+ Projects** — Completed projects across web development, programming and cybersecurity.
